CAPACITY DEVELOPMENT ON DIVERSITY IN
INTERNATIONAL RESEARCH COOPERATION

Building Successful and Sustainable Partnerships in Cross-border Collaboration

DIVERSE PARTNERSHIPS

The diversity of research teams in international research cooperation is crucial to make a real impact. But **how can we ensure these partnerships are sustainable and successful?** Anyone who wants to build lasting relationships across borders and boundaries needs to reckon with the fact that historically grown structures create more obstacles for some than others, resulting in different experiences.

With this in mind, the WAITRO Office Germany is hosting the **WAITRO Event Series: Capacity Development on Diversity in International Research Cooperation**. Three events to highlight ways to successfully navigate diversity in international research projects.

Event I: Roundtable on Managing Diversity in International Research | June 2

Discussion on the challenges of diversity in international research and ways to overcome them.

[READ MORE](#) 

Event II: A Practical Introduction to Responsible Research and Innovation (RRI) | June 15

An introduction to the principles of Responsible Research and Innovation (RRI) and its implementation in application-oriented research.

[READ MORE](#) 

Event III: Fair Research Partnerships and the Role of Intellectual Property (IP) | June 28

A workshop to highlight ways to conduct fair research and the specific role of IP rights in this context.
